PROFILE

Dedicated Computer Science student at the University of Jaffna with a specialization in ReactJS and web development. Known for a keen eye for design and exceptional teamwork abilities, I thrive in building seamless web applications and contributing effectively to collaborative projects.

PROJECTS

Wasana Bakers Web Application (Group Project)

FrontEnd Developer (ReactJs)

- Developed a web system for Wasana Bakers Pvt Ltd with features like online orders, order management, and product management. The admin panel allows easy editing of all sections. Built using ReactJS, Node.js, and MySQL.

CAMERA RENT HOUSE WEBSITE

FrontEnd and BackEnd Developer (MERN Stack)

- Designed a website for Camera Rent House with features for online booking of camera items. The admin can easily add, update, and delete items. Built using ReactJS, Node.js, MongoDB, and EmailJS for seamless functionality.
